1. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the tongue "22" having a leading edge "35" and a slanted leading face "33" slanting back therefrom must be clearly shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Figure 3 of the replacement sheets, filed August 1, 2005, does not clearly show the structure of the tongue since the lines of the drawing are rough and blurred. Note also, figure 2 shows a tongue "22" with a structure that differs from the tongue of figure 3. Original figure 3 shows a structure that does not appear to include a leading edge separate from a leading face. The drawings must be consistent and no new matter can be entered. The apparent blunt tip of the tongue in figure 3 appears to constitute new matter unsupported by the original disclosure.

The drawings (e.g., figure 8) are objected to because the structural cooperation between the section "54" and the jaw element "64" is not clear. In figure 8, where do the ends of the spring engage? In figure 8, what part of the section "54" engages the ends of the two pins shown (unnumbered)? The pins should be numbered. The slots and openings at the end of section "54" must be labeled and clearly shown in cooperation with the elements of the jaw element "64". Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application.

Art Unit: 3723

Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance. The objection to the drawings will not be held in abeyance.

2. Claims 1, 7-10, 14-16 are allowed.

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
